Baader Bank and sino AG agree further collaboration in heavy trading

Baader Bank has extended the cooperation agreement in place with its B2B partner sino (sino AG) for several years. Baader Bank and sino started collaborating back in the 2022 financial year, with sino customers being transferred to the Baader Bank platform as a result.

"Successfully transferring our customers and starting our collaboration with Baader Bank two years ago was an important milestone for all parties involved. We have been extremely satisfied with our partnership since then and we want to continue deepening it in the future so that we can grow together", say Ingo Hillen and Karsten Müller, Board of sino AG.

The cooperation partnership in the trading and account business has been agreed for a period of several years. As part of the companies' collaboration to date, the expansion of Baader Bank's product range has also been continuously developed with sino. New projects to enhance the joint setup are also being planned for the future, which will enable Baader Bank and its new and existing and B2B partners to systematically focus on further and diversified growth.

"Our cooperation partnership with sino has developed very positively over the past two years. We look forward to the continued presence of sino on our platform as a cooperation partner in the future and to writing the next chapter in our joint growth story", says Oliver Riedel, Deputy CEO of Baader Bank AG.
